'JOSS" LILY BULBS Grow in Bowls of Doz. \$1.00; 3 for 30c; Each 10c. Postpaid

Vaughan's Prepared Fiber For growing bulbs indoors. An easy and clean method Per peck 50c ; quart 10c. Complete Autumn Catalogue Free

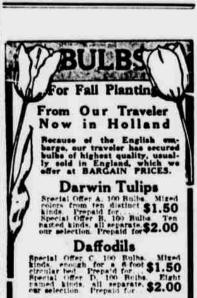

Narcissus were prized hundreds of years before the Christian era. Mohammed refered to the narcissus as hammed refered to the narcissus as hammed refered to the soul. The Homen and the soul the soul of the sou

pots, pans, hoxes or bowls, in earth, fibre or simply gravel and water they flower in greenhouse, conservatory or and more retentive of moisture by many as possible. The best way, however, is to manure land of this kind A WONDERFULLY GORGEOUS very heavily in the spring, planting the bulbs the following autumn. If planting must be done at once, remove the top soil to a spade's depth and The Most Remarkable Bulb of well rotted stable manure, replace the top soil and plant the bulbs. Three inches is about the proper depth for

planting in the open ground. Wet and heavy soils should be melon Holland Bulbs and the Dutch lowed by the use of sand or ashes worked in thoroughly and deeply, or by tile draining three feet under the surface, the drains being laid not more than twelve feet apart. The drains should be laid with a slight fall to an outlet. The water is admitted at the joints carrying it from the soil, allowing the air to enter, which is needed to support the plant.

In good garden soil use no manure whatever. Ground bone at the rate of three or four ounces to the square vard spread over the soil and dug in s the best fertilizer to use, and to this may be added any good commercial
